

July 29, 2019

Congratulations on passing the Perinatal Mental Health Certification exam and requirements! PMH-C are the initials you may now use after your name, indicating that you are certified in perinatal mental health. We are excited about the evolving field of perinatal mental health and grateful for your involvement.

Attached you will find a copy of your certificate. Print the certificate for your records, or hang it proudly in your office! You will also find a copy of our exclusive PMH-C logo that you can include on your website, brochure, or business card, to show that you are a PMH-C certified professional. [Order a high-quality printed certificate here.](#)

We have launched an online perinatal mental health provider directory, and you can register for free, designate your profession, training, and specialties, and add the PMH-C certification designation to your listing. We will display it with provider listings on our [National Perinatal Mental Health Provider Directory](#). You can [add your listing to the directory](#) at any time. Also, please consider becoming a PSI Member, visit our website to learn more about the benefits of [PSI membership](#).

Your certification requires you to report 6 hours of continuing education per year or 18 hours per three years. All of our approved courses (PSI and alternatives), will be acceptable for CE credits as long as they occur in the year you are submitting CEs. We are working to finalize the submission process; more information on how to submit your CE hours to follow!

[Here](#) is the current list of all the PMH-Cs, which is updated monthly. Thank you for being part of this important change, helping to increase the visibility and standards of the perinatal mental health field. Welcome and congratulations! Let us know if you have any questions!
